

Urban Greening Workshop May 26th
Break-out Session

There are 5 maps of vacant property sites identified in the City/Lucas County. With the people at your table, please discuss these properties for their potential for urban greening and identify the factors used for prioritization. Questions 3 through 5 pertain ONLY to your top choice. At the end of the break-out session, you will be asked to share this information with the group.

1) Rank the locations (1 = highest priority and 5 = lowest priority). Please take into consideration the factors listed on the screen.

2) List the top 3 to 5 factors used to determine these rankings.

3) Describe the potential opportunities at your top site.

4) Describe the potential challenges/barriers at this site.

5) List the top 3 to 5 co-benefits discussed at this location (see next page).

Co-Benefits of Urban Greening

Planet

- Water Quality
- Habitat
- Climate Mitigation
- Air Quality

People

- Aesthetic Improvements
- Community Engagement
- Recreational Benefits
- Quality of Life Benefits

Profit

- Jobs
- Economic Development
- Drinking Water Costs
- Long-term Maintenance Costs
