TMACOG Welcomes New Members

Township Trustees of Portage Township in Wood County voted to become members of TMACOG at their March meeting. They join 36 other jurisdictions and special districts from Wood County as TMACOG members.

The Board of Education for Washington Local Schools in Lucas County also voted to join TMACOG. Schools, colleges, and universities now compose a significant caucus among TMACOG members.

There are now 19 educational institutions that are TMACOG members out of a complete membership of about 150 governmental and non-governmental members.

TMACOG members include governments and non-governmental organizations in northwest Ohio and southeast Michigan: cities, counties, villages and townships, as well as schools and colleges, park districts and other groups concerned with quality of life in the region. Members work cooperatively to face challenges and pursue opportunities in the areas of transportation and the environment.
