Student Share Results of Water Quality Testing

The twenty-second annual Student Summit of the Student Watershed Watch was held November 15 at the University of Toledo. Nearly 300 students from a dozen schools attended. Each participating class prepared a presentation of their water quality testing and analysis. These results were presented from the stage at the auditorium and in table top, poster displays. A panel of judges evaluated the oral presentations and students judged the table top displays.

Oral Presentations

Overall Best Presentation: Toledo Early College HS, Mr. Bollin's class

Most Informative Presentation: Perrysburg HS Environmental Club

Most Creative Presentation: Start HS, Ms. Wilson's class

Special recognition was given to a Bowsher High School science intern Sasha Kabarday for **excellence in independent research**. Sasha is a student of Mr. Bourland and is mentored by the engineering firm Hull and Associates.

Table Top Displays

Overall Best Display: Sylvania Northview HS

Most Informative Display: Clay HS and Ottawa Hills HS (tie)

Most Creative Display: Central Catholic HS
