

Agricultural Actions for Clean Water in the Western Lake Erie Basin

Please plan to join educators, water and agricultural researchers, and elected and appointed government officials for this TMACOG Tech session at Monroe County Community College.

Wednesday, November 15, 2017, 12:30 p.m. - 4 p.m.
Monroe County Community College
1555 S. Raisinville Rd., Monroe, MI 48161

The program will include a keynote presentation from Christopher Winslow, the director of the Ohio Sea Grant College Program, on the current condition of Lake Erie water and how state and federal agencies are addressing challenges.

Additionally, representatives from local and state agencies, universities, and the farm community will highlight research, conservation practices, and policies that are effectively improving water quality.

People attending the Nutrient Bus Tour organized by Soil and Water Conservation Districts, and Farm Bureaus on Nov. 14 are welcome to attend TMACOG Tech. There is no charge for TMACOG Tech but separate registration is required. Registration information will be available soon.

For more information on the program and on sponsorship and exhibit opportunities, contact [Kris Barnswell](#), TMACOG Water Quality Planner, 419.241.9155.

This TMACOG Tech is made possible through the support of The Andersons, The Nature Conservancy, and Southeast Michigan Council of Governments (SEMCOG)
