

“On the Move: 2007–2035 Transportation Plan” — Identifying Needs & Opportunities*

Instructions:

1. List transportation needs (*not projects or solutions*) that concern *you* directly – plus problems or opportunities that are concerns in our region.
2. “Rate” each item: 4 = Regional impact / Higher importance; 3 = Regional impact / Moderate importance;
2 = Local impact / Higher importance; 1 = Local impact / Moderate importance.

Voting: Place dots in this column	Problem, Need or Opportunity	So what? (Impacts)	Rating
1	Underutilized multi modal facilities (Port, Airport, etc.)	Regional Economy Suffers	4
	Capacity on Highway / Street Networks	Loss of Time, Waste of Energy / Resources, Safety	4
5	Poor Public transit in rural areas and certain urban areas	Reduces option sick / elderly /working poor	1
3	Pedestrians and cyclists have trouble crossing certain facilities	Discourage Bicycles / Pedestrians thru certain areas	2
5	Not enough dollars for maintenance of roads and road / rail crossings	Not enough dollars for maintenance of roads and road / rail crossings	3

*Note: TMACOG is looking at transportation needs in fall 2005; developing solutions in 2006; and making recommendations in early 2007.
