

“On the Move: 2007–2035 Transportation Plan” — Identifying Needs & Opportunities*

Instructions:

1. List transportation needs (*not projects or solutions*) that concern *you* directly – plus problems or opportunities that are concerns in our region.
2. “Rate” each item: 4 = Regional impact / Higher importance; 3 = Regional impact / Moderate importance;
2 = Local impact / Higher importance; 1 = Local impact / Moderate importance.

Voting: Place dots in this column	Problem, Need or Opportunity	So what? (Impacts)	Rating
20	Maintain and Improve existing infrastructure – Need dollars	Increases Delay, accidents, safety, underutilized roads, increases vehicle cost, increases pollution	4
1	Transportation fuel sources and costs	Lowers revenues, Higher costs	4
3	Inadequate access to transportation hubs (Airport / Rail / Port)	Congestion, truck load limits (Low and High)	4
10	Mass transit – moving people and goods economically	Negatively impacts economy, workforce, etc.	4

*Note: TMACOG is looking at transportation needs in fall 2005; developing solutions in 2006; and making recommendations in early 2007.
