2035 Transportation Plan Update 2011: Committed Projects
Stream Habitat and Flood Plains - Lucas and Wood Counties

Source: ODOT, MDOT, Lucas County, Wood County, USGS, ODNR, FEMA, Metroparks of the Toledo Area

Legend:
- Roadway
- Railroad
- Pedestrian/Bikeway
- Public Transit
- 100-Year Flood Plain Areas*
- Significant Stream Habitat**
- Metroparks of the Toledo Area
- Intersection, Interchange, Bridge Projects
- Project Corridors (exact location to be determined)

*Land areas that have a 1 in 100 chance of flooding in any given year. Data based on current effective FEMA flood maps for Lucas (2000) and Wood (1991) counties.

**Stream corridors with a 100-foot surrounding land area for the larger tributaries to Lake Erie.

See corresponding list for project descriptions.
