

## Brainstormed Solutions - Preserve System

Problem Statement #1: Need to maintain bicycle/pedestrian systems								
Brainstormed Solutions [Gary & Jeff will work on this]	Solution Ranking	Project	Policy	Initiative	Long Term	Short Term	Fix the Symptoms	Fix the Root Cause
Public doesn't understand that sidewalks are property owner's responsibility:								
Need to provide public education (about who has what responsibilities)				X	X	X		
Need to have a policy that political jurisdictions enforce their laws about construction and maintenance of walks			X		X	X		
Jurisdictions should have a policy concerning public owned walks/trails in their snow/ice removal plans and have/enforce laws regarding clearing facilities adjacent to private property.			X		X	X		
Promote a mechanism for township authority regarding maintaining and clearing sidewalks			X					
Promote regional consistency in sidewalk maintenance regulations			X					

Problem Statement #2: Insufficient/problematic road maintenance and road appurtenances								
Brainstormed Solutions [Gary, Layth, Imad & Jeff to work on steady state system/ funding needed]	Solution Ranking	Project	Policy	Initiative	Long Term	Short Term	Fix the Symptoms	Fix the Root Cause
Use appropriate repair techniques and materials			X		X			
Educate policy people				X	X			
Educate engineers (public and consultants/contractors)				X	X			
Educate those performing the work				X	X			
ID Appropriate timing for techniques				X	X			
Limit/discourage pavement cuts and encourage full repair within a reasonable time			X					
Determine steady state				X				
Establish a uniform PCR system or an agreeable conversion (sewers, signals, etc.)			X					
Establish steady state budgets			X		X			
Consider use of PCR in TIP evaluation process				X				
Determine needed "catch up" projects to reach steady state		X
