

## On the Move: 2007-2035 Transportation Plan

### LOS/Safety Goal Group

The Objectives listed are based on previous work of the 2035 Task Force. They can be modified if needed.

Goal Statement	Objectives
<p>Designed and operated for an efficient level of service and safety</p> <p><i>Proposed revision:</i> “Designed and operated to promote safe and efficient travel across all modes”</p>	1. High Priority for ITS, access management, and traffic safety programs
	2. Reduce travel time (congestion) and delay by improving system operations
	3. Safe and efficient transportation systems to all parts of the region
	4. Truck traffic – safely and more efficiently move freight, include reducing through traffic on non-interstate routes
	5. Predict and handle capacity affected by suburban growth
	6. Reduce/eliminate conflicts between modes of transportation
	7. Establish and maintain hazardous material transportation data base
