

TMACOG “On the Move: 2007-2035 Transportation Plan”

On the Move will be based on our **Transportation Vision**:

We envision a vibrant region with a dynamic economy and high quality of life where transportation is a core strength.

Our region and its transportation system will:

- Be a top quality multi-modal passenger transportation hub,
- Be a world-class multi-modal freight transportation hub,
- Be a center of transportation research and innovation,
- Protect and sustain community and natural environments,
- Protect the region's investment by maintaining and preserving the existing system,
- Be designed and operated to promote safe and efficient travel across all modes, and
- Be successful in obtaining adequate funding for transportation facilities.

-Approved by TMACOG Transportation Council, 2005
