

Northwest Ohio/Southeast Michigan Air Facility Inventory By Aircraft Type

This Air Freight Inventory is part of the TMACOG Bi-State Study.

Bi-State Study Goals:

Strengthen the Competitive Position of the Region by Facilitating More Efficient Transportation of Freight.

Identify Problem Areas and Name Specific Projects for Solutions.

Inventory and Catalog the Region's Multi-Modal Transportation Resources for Use as an Economic Development Tool.

Publish Map for Use on the Internet.

*For detailed Air Facility information, please refer to the table.
