

**TMACOG Administrative Modification #5
FY 2018-2021 Transportation Improvement Program**

This administrative modification was approved at the Transportation Improvement Program Committee on August 27, 2018, and at the Transportation Council on September 5, 2018. The modification will add the following language to the FY 2018-2021 Transportation Improvement Program under the performance measures section. The following language will be added to the FY 2018-2021 TIP and is regarding the Transit Asset Management Performance Measures.

Starting on October 1, 2018, TIP amendments must be developed in compliance with the performance-based planning and programming requirements of the FAST Act for transit asset management performance measures. ODOT, as the group sponsor for Tier II transit agencies in Ohio, set performance targets for the percentage of assets that are past their useful life. Each category of asset has their own target, and they are indicated in the chart below. TARTA adopted ODOT's performance targets. Therefore, all transit agencies in the TMACOG region follow the below information. To aid in meeting those targets in the TMACOG Region, TMACOG continues to plan, program, and fund projects that have a positive impact in achieving the targets outlined in the Transit Asset Management Plan. The FY 2018-2021 TIP has 29 transit related projects totaling approximately \$68,967,467.
