

TMACOG FREIGHT COMMITTEE AGENDA & MEETING NOTES

Monday, January 24, 2011, 3 p.m.

1. Welcome and introductions – Ray Huber

2. The Toledo Harbor Dredging Crisis – Joe Cappel

Joe Cappel gave a presentation to the committee and others in attendance on the importance of dredging the shipping channel in the Maumee River and Maumee Bay. Keeping the shipping channel open is vital to the flow of commerce at the Port of Toledo and to the economic success of the region. An issue that will need to be addressed by the Dredging Task Force is what to do with the dredged materials, especially if open lake disposal is no longer an option.

The PowerPoint presentation and an Army Corps map are available on the Freight Planning page of the TMACOG website (www.tmacog.org).

3. Adjourn
