

FY 2018 Specialized Transportation Resolution — STAFF REPORT

TOLEDO METROPOLITAN AREA COUNCIL OF GOVERNMENTS
BOARD OF TRUSTEES AGENDA
DECEMBER 13, 2017

Subject: Resolution to recommend award of Specialized Transportation Funds

Under 49 USC Section 5310, the U.S. Department of Transportation Federal Transit Administration (FTA) is authorized to issue capital grants for the purpose of assisting organizations in providing transportation services to meet the special needs of elderly persons and persons with disabilities where existing transportation services are unavailable, insufficient or inappropriate. FTA allocates federal funds to states for the purpose set forth in 49 USC Section 5310 and the Governor of each state, or his/her designated state agency, is responsible for administering and distributing these funds. In Ohio, the program is administered under the name of the Specialized Transportation Program. TMACOG staff has coordinated the application and review process for the program this year. Following past practices and ODOT guidelines, a public announcement of funding availability was made and applications were received from five (5) private providers in the area.

These applications were evaluated by TMACOG staff, TARTA staff and representatives from the Public Transit Committee, in accordance with evaluation criteria provided in the funding application. Based on this evaluation process, the applications were scored and ranked. TARTA is the direct recipient of funding for the 5310 program and determined there was \$260,386 available for FY 2018. Applications were submitted by East Toledo Family Center, Maumee Senior Center, Anny Grady Corporation, Epilepsy Center of Northwest Ohio, and Sunshine Communities. The total funding request was \$502,266.

Based on the scoring and funding availability, it is recommended that the East Toledo Family receive two vehicles (\$56,549), the Maumee Senior Center receive one vehicle (\$47,868) and their request for preventative maintenance funds (\$898), the Anne Grady Corporation receive two vehicles (\$104,000), and the Epilepsy Center of Northwest Ohio receive one vehicle (\$46,400).

This recommendation was approved by Transportation Council on December 6, 2017.
