The Toledo Metropolitan Area Council of Governments hosts receptions at individual counties throughout the TMACOG region each year. You are invited to join TMACOG members, elected officials, and business and community leaders at this annual networking and information-sharing event.

TMACOG and its partners work on issues that affect quality of life in our region. Our primary areas of concern are transportation planning including highways, freight systems, and bike and pedestrian facilities; and environmental planning for water quality and air quality. We look forward to a conversation about your local concerns at a productive and pleasant meeting.
